LEASING GROUND FLOOR

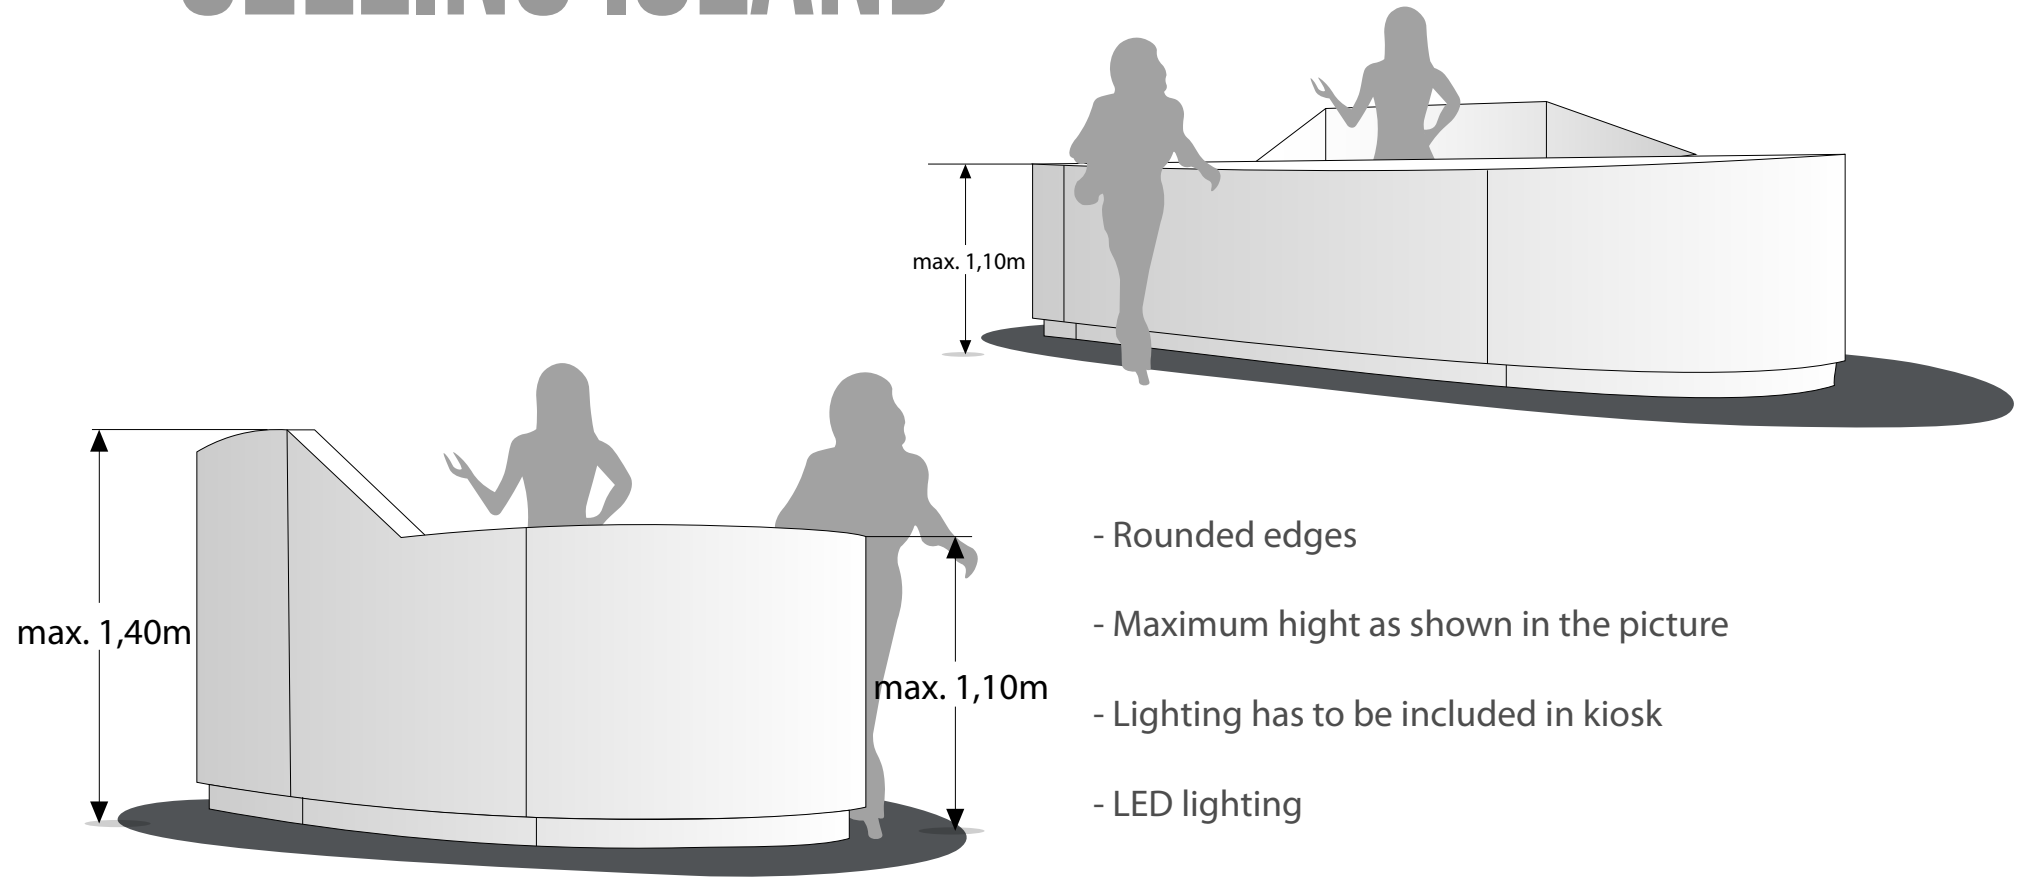

LEASING FIRST FLOOR

DESIGN:

SELLING ISLAND

- Rounded edges
- Maximum hight as shown in the picture
- Lighting has to be included in kiosk
- LED lighting
- Invisible laid cables
- No lighting above the kiosk

The kiosk design should be simple, elegant and modern. With slightly rounded corners and a beautiful appearance when the kiosk is closed.

- High-quality materials
- Related elements of the kiosk
- Integrated lighting
- No visibility into the mall

MATERIALS

All materials which can be used must not be flammable and must comply with the B1 / Q1 fire class. All materials used on the exterior walls must meet the following requirements.

- Spatter-free glass
- Surfaces: Corian, HI-MACS, Fundermax
- 0733 matt sanitary white with white Kerm
- Alternative: MDF matt painted in NCS - S 080 - Y300i

High quality wood elements or wood optic elements. All cables or connections must be integrated or visually protected

Unacceptable materials:

- plastic imitations
- Carpets, textile fibers
- chipboard
- Stone or brick

LOGOS & INSCRIPTIONS

All logos are to be found on the lower half of the kiosk. Individual illuminated LED letters or logos of plexiglass with illumination behind them are preferred.

Unacceptable logos:

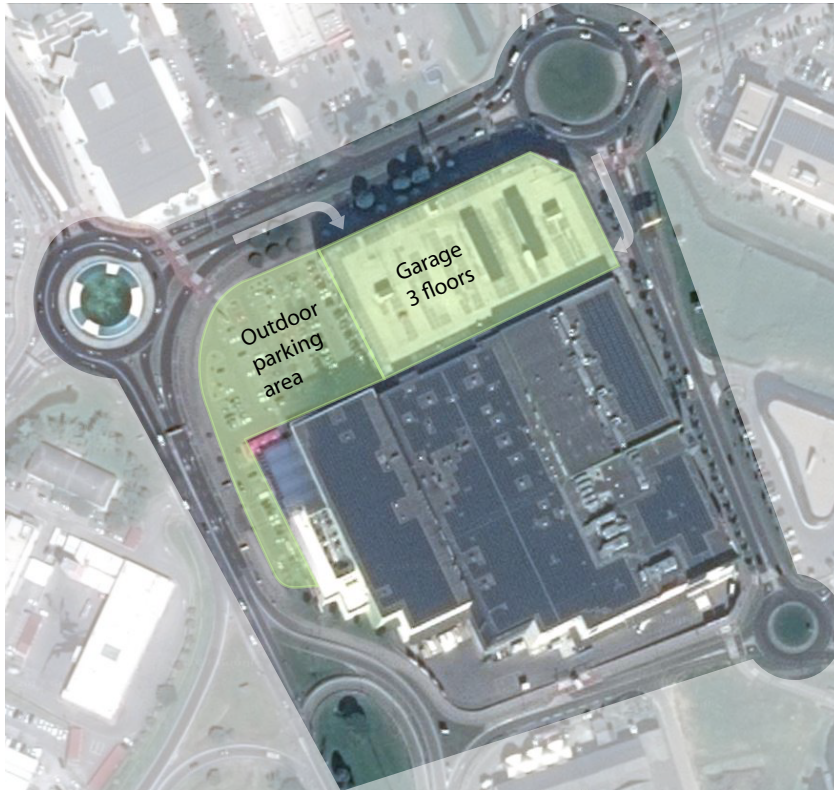

- Logos made of paper
- Stickers or peel-off films
- Logos from Styropor
- Light boxes

The logos and the layout are to be released by the Center mangement.

LOCATION

- Location: Coastal region
- Frequency and location: Very good
- Urbanization: Above 75%.
- Access: Regular unobstructed

32.000 SQUARE METERS

65 STORES

OVER **1.000** PARKING SPACES

3,8 MIO. VISITORS PER
YEAR
